Re: Water Service Line Survey

Dear Customer,

The EPA is requiring all public water systems to do a complete inventory of all public and private water lines. You can help us with this inventory by completing the form on the back of this letter. Please answer the questions to the best of your knowledge. If you don't know the answer that is okay, we can come by and do a visual inspection later.

Please return the survey form, on the back of this letter at your earliest convenience to our office at 1100 Main St., Trenton, MO 64683. If you have questions, please feel free to call Kenny Ricketts at 660-359-2838.

Thank you for helping TMU meet compliance with this EPA regulation.

Sincerely,

Ron Urton, PE
City Administrator/Utility Director

Please complete form on the backside of this letter.
